

# Play Dough Recipes

## Recipe #1

1 cup of hair conditioner  
2 cups of cornstarch  
Mixing bowl and spoon (or craft stick for smaller batches)  
Food colouring  
Glitter (optional)  
Large Zip Lock bag or air proof container

1. Place the hair conditioner into the bowl.
2. Add food colour and/or glitter and stir to combine.
3. Scoop in cornstarch spoon by spoon until you have a nice play dough consistency.
4. Once you've finished playing with it, place it in a large Zip Lock bag or air proof container for future use.

This playdough does not require heat and because of the fragrances in the hair conditioner, this playdough smells divine!

## Recipe #2

1 cup salt  
3 cups plain flour  
2 tbsp vegetable oil  
food colouring  
Glitter (optional)  
250ml (1 cup) warm water  
Mixing bowl and wooden spoon  
Large Zip Lock bag or air proof container

1. Mix all the dry ingredients (including glitter) in a bowl and then add the oil.
2. Measure the water and add the food colouring to water.
3. Slowly add the water, mixing with a wooden spoon, until it is too hard to mix with a spoon.
4. Knead inside the bowl until the desired consistency is reached then out on the table (you may need to sprinkle some flour much like making bread dough)
5. Kneading will help to improve the texture.

This playdough recipe is a great one! The hotter the water, the quicker it comes together while kneading but you don't want it too hot if your students are kneading it. Either way, it works every time!
